Copley Flood Alleviation Scheme Temporary Fencing around Embankment

Following completion of the Copley Flood Alleviation Scheme (FAS) construction works, temporary fencing has been installed to protect the embankment until new grass seed can be sown and established.

Due to the dry start to the year, we have been advised by our specialist sub-contractors that soil conditions are currently not suitable for grass seed to germinate.

As a result, this area will stay closed and fencing will remain in place to protect the integrity of the embankment until optimal weather conditions allow for grass seed to be sown and established. We will continue to monitor the situation and will endeavour to remove the fencing as soon as possible.

We apologise for any inconvenience this may cause, and thank you for your patience.

If you have any queries, please contact us by emailing at CalderdaleFAS@environment-agency.gov.uk.
