

# Keeping You Informed

## Hebden Bridge Flood Alleviation Scheme

November 2025

The Environment Agency is working with Calderdale Council to design and build a Flood Alleviation Scheme for Hebden Bridge.

### Planning Application Consultation Closed

The consultation period for the Hebden Bridge Flood Alleviation Scheme (FAS) planning application has now officially closed, and we want to extend our sincere thanks to everyone who took the time to contribute. The formal consultation period has finished, but comments can still be sent to Calderdale Council's planning officer up until the Planning Committee meets.

#### What Happens Next?

The next stages in the project will include:

- Planning Permission determination

If Planning is approved:

- Securing full funding
- Obtaining Full Business Case (FBC) approval
- Appointing a construction contractor

We remain committed to keeping you updated as the project progresses. We will provide updates through our 'Keeping You Informed' notices and information will be available on the Eye on Calderdale website. If you haven't already, we encourage you to subscribe to regular updates by sending the word 'subscribe' to [HebdenBridgeFAS@environment-agency.gov.uk](mailto:HebdenBridgeFAS@environment-agency.gov.uk).

#### Flood Information Centre revised opening times

Our Flood Information Centre also remains open on Valley Road on Mondays and Fridays (from 10am – 2pm) through to Friday 12<sup>th</sup> December. We will re-open on Monday 12<sup>th</sup> January and then continue each Monday from 10am – 2pm. The Information Centre offers a space where you can drop in and ask questions of the project team. We can also be contacted via our dedicated email address [HebdenBridgeFAS@environment-agency.gov.uk](mailto:HebdenBridgeFAS@environment-agency.gov.uk).

Our Stakeholder Group will continue to meet regularly and remains a vital part of our engagement work. We're also working closely with those directly affected by the proposed work and the wider community to ensure everyone's voices are heard as the project progresses.
