Keeping You Informed

Brighouse Flood Alleviation Scheme — October 2026

Whinney Hill Park – Re-Opening Friday 6th November

Whinney Hill Park has undergone significant changes as part of the Brighouse Flood Alleviation Scheme (FAS) and we are now pleased to welcome the community back to the park.

Over the last two years, work has taken place to help reduce the risk of flooding to homes, businesses and infrastructure in Brighouse. As part of the scheme, Whinney Hill Park has been redesigned to play an important role in managing flood water during periods of heavy rainfall.

The changes to the park have been carefully designed to balance flood resilience with the continued use of this valued community space. The new layout will help the park temporarily store and manage water when needed, whilst providing improved open space for residents to enjoy throughout the year.

Join us at the **Bradford Road entrance** of Whinney Hill Park, between **1pm and 4pm on Friday 6th November** to:

- Meet the project team
- Learn more about the Brighouse Flood Alleviation Scheme
- Find out how the park helps reduce flood risk
- See the improvements and changes that have been made
- Share your feedback
